Mobile Player Assessment Solutions

"We're thrilled to be integrating SportsBoard into our camper evaluation process here at IMG Academy. The unique and powerful golfer assessment mobile technology allows us to easily capture videos, voice memos and skills ratings on campers that their parents really appreciate receiving right after camp ends. The individual feedback we can easily distribute to many campers at one time is remarkable and allows us to offer a significant new value to our camp operations!"

Tracy Reiser
Assistant Director, Golf
